ⓘ About me

I am a dedicated second-year student who has been steadily advancing in Java programming and is determined to carve a niche as a web3 and blockchain developer. My immediate objective is to immerse myself in JavaScript development during the upcoming summer to synergize with my long-term career ambitions. The joy of self-improvement is a constant motivator, driving me to enhance my skills and deepen my understanding with each passing day.

🎓 Education

• Hayrullah Kefoglu High School	2017 - 2021
